5.7.1	Consideration and approval for the diversion of the road passing through the IIIT Pune Campus Land. The plot of land at Gat No. 5 and 6, near Village Nanoli Tarf Chakan, has been allotted to IIIT Pune by the Government of Maharashtra, as per the Karyasan Adhikari Government of Maharashtra order no. ३४१४/५८/प्र.क्र.१३१/अ-५, dated 24 th June 2015. A public road currently passes through this plot. The Joint Director					

of Technical Education, Regional Office Pune, via letter no. TEROP/SS/IIT/2015-16/6505 dated 28-12-2015, proposed shifting this tar road along the periphery of the land.

If this road is not diverted, the Institute will face the following issues:

- i) It will be impossible to implement a well-planned campus layout as per the Master Plan for IIIT Pune.
- ii) The road passing through the campus will divide the campus into two parts.
- iii) If the campus is divided, students, faculty, and staff will have to frequently cross the road.
- iv) It will be dangerous and unsafe for pedestrians, especially children, women, senior citizens, and persons with disabilities (PWDs), to cross a busy road with heavy traffic.
- v) Academic activities, classrooms, laboratories, libraries, and other areas requiring a quiet atmosphere will be disturbed by the noise from vehicle movement and horns.
- vi) The proximity of the road to academic and hostel buildings will result in dust accumulation due to vehicle movement, leading to potential health hazards.
- vii) It will also be inconvenient for heavy vehicle traffic to pass through the Institute's land.

All these problems can be avoided if the road is diverted.

Since 2021, IIIT Pune has repeatedly contacted PMRDA to divert this road. However, instead of diverting it, they began widening the road in May 2024. They were immediately requested to halt the road widening.

In May 2024, it was determined that the road belongs to the PWD Department of the Government of Maharashtra and is classified as MDR (Major District Road) 227. Consequently, PWD authorities in Pune were contacted. They have taken up the matter, and a proposal for diverting this road along the western and southern boundaries of the plot has been prepared at a cost of Rs. 470.78 lakh. This proposal has been forwarded by the Executive Engineer (EE), PWD (North) Division, to the Superintending Engineer (SE), PWD Pune Circle, via letter no. 8618, dated 13.08.2024. The proposal is on a deposit basis, requiring the entire amount of **Rs. 470.78 lakh** to be deposited before the tender process can begin.

If the road is not diverted, the Institute will face difficulties, with one of the most serious concerns being the risk of road accidents, as described in point (iv).

Additionally, if the road is not diverted, the Institute will need to construct security compound walls on both sides of the road. Furthermore, a subway will have to be constructed to ensure safe passage between Gat No. 5 and Gat No. 6. The approximate cost for these constructions has been estimated at around **Rs. 494.90 lakh**.

According to condition no. 4 of letter no. 8618, dated 13.08.2024, from the EE, PWD, a total of 30 meters wide land must be handed over to the PWD for the construction of the road. Similarly, after the completion of the diverted road, a 30-meter-wide portion of the existing PWD road will be handed over to IIIT Pune. Based on rough estimates, approximately 30,000 square meters of land will be handed over to the PWD, and after the completion of the diverted road, around 24,000 square meters will be returned to the Institute. Thus, approximately **6,000 square meters** of additional land will need to be given to the PWD for public use.

Considering the above considerations, particularly the need for a quiet atmosphere and road safety, it is proposed to allow PWD Pune to divert the road on a cost deposit basis.

This agenda was deliberated by BWC by circulation on 17th August 2024 as well as Finance Committee on 21st August 2024 and both committees recommended to BoG for approval.

Resolution:

The BoG deliberated and approved.
