2		Dear Sir, I want to inform you that before the implement of EPR certificate EPEAT/EPEAT GOLD CERTIFICATE is compulsory for environmental safety certification after implementation of EPR RULE 2022 (the E-Waste (Management) Rules, 2022 were published by the Government of India in the Ministry of Environment, Forest and Climate Change, vide notification number S.O. 360 (E), dated the 19th May, 2022 in the Gazette of India, Extraordinary, Part II, section 3, sub-section (i)), We have need only EPR CERTIFICATE for Environment, Forest and Climate Change, so we request you that kindly consider our participation and climate change.	The EPEAT certification is crucial for environmental safety and compliance. The EPEAT standard, especially the EPEAT Gold certification signifies adherence to stringent environmental criteria. It demonstrates the commitment to environmental responsibility, ensuring that the products minimize the environmental impact throughout their lifecycle. Hence, no change the existing condition of the tender.
3		As per Rule 173(i) of GFR 2017 and Government e-Marketplace guidelines, technical criteria should not restrict fair competition. While we confirm that the offered product is preloaded with genuine Microsoft Windows 11 Pro (OEM certificate will be provided), we request waiver of Ubuntu certification requirement, as Ubuntu compatibility can be ensured without formal certification. Many reputed OEMs do not seek official Ubuntu certification despite full functional compatibility. Restricting to certified models may limit participation and violate principles of equity under Rule 149 of GFR. We seek your kind approval to accept an OEM-issued compatibility confirmation in lieu of Ubuntu certificate.	Regarding the Ubuntu certification, it is essential to ensure that the products are fully compatible with the Ubuntu operating system. While many OEMs might claim compatibility, having an official certification provides a formal validation and assurance to the buyer. This certification acts as a guarantee, reducing any potential compatibility issues and ensuring smooth operation for the end-users. Hence, no change the existing condition of the tender.
